1 INTRODUCTION

“Success will be the result of our consistency.”

It is an honor to have been invited to write this introduction, and an incredible pleasure to lead the Board of Advisors. I clearly believe that we can empower people to do magical things in this life. This is my inspiration for this new challenge.

The NFT Games industry and other creative things that use the power of blockchain, do not respect the standards, and only follow the trend of digital transformation. This is a critical time for the industry and a huge challenge for **CryptoNitro**. We need to move without any mistakes!

We will structure and work towards a project to reach a level that no NFT Game has reached until now. We will release a Game that will have a competitive scenario, skill-based gameplay, and a whole market of collectible skins.

CryptoNitro, we're undoubtedly a different company! We want to be unique, irreverent and a reference. We are proud to have one of the most innovative, talented, hardworking, and passionate teams of the world. For sure, we will always be faithful to our vision, values and mission, showing the highest respect and true commitment for the entire ecosystem and its stakeholders.

Together, we will Make History with our Company, serving our Employees, Community and Partners with renewed purpose and clear focus for future success for many years to come.

Let's build the success together.

Sincerely,

Noel Cunha De Ornelas Gomes
Chairman of Board of Advisors
